Combine world-class players with spoken-word poetry and you get a rompin' wild ride with **GYPSY BED**, the sexy, cool, jazz and world-infused sextet. This all-acoustic debut has songs dealing with social issues as well as living, dying, and love. Featuring "Skin to Skin," previously recorded by Harry Belafonte, Jennifer Warnes and Diane Reeves.

Godfrey Nelson is a composer/producer who has worked in many aspects of the music business from songwriting and commercials, to film, theater and CDs. Gypsy Bed's debut CD has given Godfrey a chance to bring together a group of friends he has worked with over the years to realize a vision, hence the band "Gypsy Bed".

All the musicians and co-writers on this CD are world-class artists in their own right and have contributed their talents with heart and soul. Instrumentation includes acoustic guitar, upright bass, accordion, piano, vocals and drums.
